

INDUSTRIAL WATER PROJECT / NORTHERN ANDHRA PRADESH

RELIABLE WATER FOR NORTHERN ANDHRA PRADESH INDUSTRY.

Pydibhimavaram is an established industrial area in Ranastalam mandal, Srikakulam district, on Andhra Pradesh's northern coast. Pharmaceutical and chemical manufacturers require continuous process and utility water, while existing supply does not cover demand and groundwater fills part of the gap.

FOD Solutions India proposes a shared seawater reverse-osmosis plant and dedicated pipeline. Capacity begins at 10 MLD and grows to 30 MLD as customer volumes are contracted.

GOVERNMENT RECORD

35 MLD

Capacity tendered by APIIC in 2022 for the same industrial cluster.

COMMERCIAL TRACTION

3 LOIs

FOD reports signed customer LOIs covering approximately 3 MLD.

PROJECT SCALE

10 TO 30 MLD

Project capacity grows in modules alongside contracted demand.

REVENUE MODEL

25 YEARS

Proposed commercial horizon for long-term metered water sales.
